

# RAINTREE™

## 100% WATERPROOF REAL HARDWOOD

CONSTRUCTION	Real wood wear layer and 100% Waterproof Rigid Core
SPECIES	European White Oak or American Hickory
FINISH	Waterproof and scratch-resistant finish
TEXTURE	Wirebrushed
EDGE PROFILE	Microbevel
THICKNESS	7.2 mm
DIMENSIONS	7.5" wide, mixed lengths from 12" - 75"
INSTALLATION	UniClic® locking system
GRADE LEVEL	On, above, below
CLEANING	Wet mop, routine vacuuming
WARRANTY	Lifetime
PACKAGING	15.54 SF / Carton; 50 Cartons / Pallet; 21 Pallets / Container; 40.46 Lbs / Carton

## The Future of Hardwood is Here

Raintree utilizes a hybrid construction that takes a 100% waterproof core and tops it with a luxurious sliced hardwood lamella to create a real hardwood floor that is engineered for modern life. This innovative construction provides the waterproof performance and indentation resistance of rigid core flooring without sacrificing the authentic design and value-adding benefits of real hardwood.

### 1. PET GUARD

Waterproof and scratch-resistant finish protects wood wear layer and allows for routine maintenance.

### 2. HARDWOOD WEAR LAYER

1.2 mm real hardwood veneer offers an authentic, natural visual.

### 3. H2O CORE

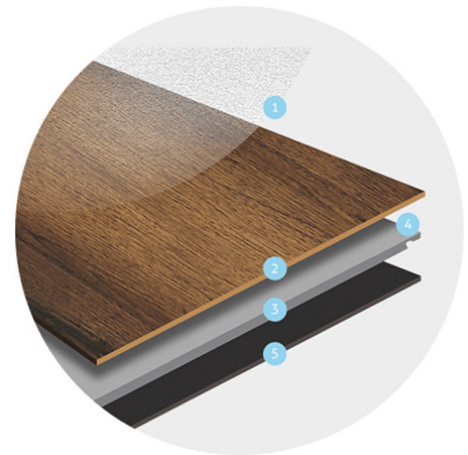

Our H<sub>2</sub>O core can withstand high-traffic and heavy loads better than solid hardwood and luxury vinyl tile.

### 4. UNICLIC® TONGUE + GROOVE

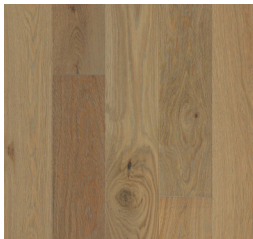

Fast and secure locking system for glueless installation over existing flooring.

### 5. STEALTH ATTACHED PAD

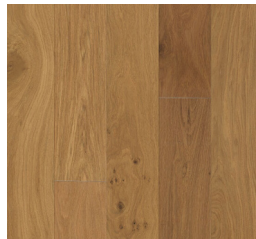

1 mm IXPE acoustical foam backing layer improves sound and comfort underfoot.
