About the Collection

Much like the elegant city for which it is named, the Charleston Collection perfectly balances timeless beauty with modern sophistication. An unprecedented fuming technique is used to age the natural grain and lock in the signature colors that perfectly capture the beauty of the Lowcountry. Created from fine French Oak hardwood sourced from Belgium and France, Charleston features 4mm thick and 8" wide planks that are lightly wire brushed by hand. Although engineered hardwood flooring, Charleston's generous 4mm top layer allows it to be sanded like a solid hardwood floor. With all the benefits of both engineered and solid hardwood flooring, the Charleston Collection was crafted to last for years to come.
